Disability Pride Month – Celebrate What Makes You Unique!

Disability Pride Month is a chance for Americans to work together to amplify the voices of disabled persons as well as allow nondisabled people to look more closely at the ways in which their privilege has advantaged them and how they can become better allies for their disabled peers.

By including people with disabilities in everyday activities, speaking up about and creating inclusive and accessible environments where they live and work, creating equitable opportunities to support their disabled peers in both education and work, and by truly listening to and learning from the stories and voices of disabled persons, nondisabled people can really become better allies and a fighting force for the voices of those who are disabled.

Overcoming Digital Barriers in Rural Ohio – Donna's Story

We know that today's workforce requires an understanding of digital tools. But what happens when a person does not have access to them or resources that improve their digital skills?

This is the case for many older adults living in rural areas across Ohio. At Vantage, it's our mission to ensure that all older job seekers are part of the Digital Inclusion movement and have access to these skillsets and devices.

Meet Donna, a participant in Vantage's Senior Community Service Employment Program and the Digital Inclusion program. She is building her skills and confidence through hands-on training and one-on-one coaching.
